

Evan Ordona

West Caldwell, NJ | evanordona@hotmail.com | github.com/evanordona | (973) 303-5252

EDUCATION

University of Maryland — College Park, MD

Sept. 2019 – Dec 2023

B.S in Computer Science
Minor in Business

SKILLS

Languages/Frameworks: Java, JavaScript, CSS, HTML, React, Python, Kotlin, Pandas

Development Software/Tech: Node, Git, MongoDB, VSCode, Eclipse

Other: Quick and adaptive learner, strong communication skills, attention to detail

PROJECTS

Multiplayer Web-Game

<https://mak-game.onrender.com/>

- *React, Tailwind, Express, Socket.io*
- Skin/remake of popular game club-penguin card-jitsu
- Utilized web-sockets for communication between clients

Food Tracker Web-App

<https://gainztracker.onrender.com>

- *React, Tailwind, Express, OAuth, NodeJS, Mongoose, MongoDB*
- Designed and implemented a full-stack web app
- Users track caloric intake and protein consumption, set dietary goals, view historical data
- Implemented user authentication via Google SSO using OAuth.
- Utilized Chart.js to create interactive pie charts for visualizing calorie consumption relative to goals, enhancing user experience and data comprehension.

NBA Odds Calculator

https://github.com/evanordona/odds_calculator

- *React, Tailwind, Express, Puppeteer, MongoDB*
- Fetches from sports API and stores data in a MongoDB database
- Displays today's NBA games collected from web scraping via puppeteer
- Used a formula to return calculated spread of each game
